

WOMEN IN BUSINESS - e-SEMINAR ADVANCED DISCOVERY PROGRAMS

YOUR RELATIONSHIP WITH MONEY

'The Money Game' should be an easy feat to master, but then why such hardship and why such disconnect with making or keeping money? Talking about money should be rational, but why does it often become emotional? Why so many feel uncomfortable talking about money? What is the source of an adverse relationship with money and can it be corrected? When we do not have the money we want, why do we often deny the importance of money?

Welcome to 'Your Relationship with Money'. Step by step, the participants are guided into investigating and understanding the relationship they have with money and the relationship that money has with them. Then, they move forward to identify those belief systems that create the barriers they have to making the money they say they want to make. Finally, a discussion focuses on the options to remove ineffective behaviors towards money and the 'Secret' on how each one of us can make the money we want.

Delivered to the privacy of your home, office or any other space where you feel comfortable, you will utilize Video Conferencing technology to allow you to see, hear and discuss the topics of the e-Workshop. The Program lasts four weeks, 1.5 hours per week in a small group environment of other women willing to have an open discussion about how they relate to money, looking for solutions in a positive, supportive and confidential environment. *Week Two and Week Four Workshop interviews are free of charge.*
